following:

- a. all costs and associated charges charged by the investment firm or other parties where the client has been directed to such other parties, for the investment services(s) and/or ancillary services provided to the client; and
- b. all costs and associated charges associated with the manufacturing and managing of the financial instruments.

4. Costs and Charges

Please find below the relevant fees (costs and charges) applicable to Magic Compass Ltd Clients:

4.1. Spread

Spread is the difference, usually indicated in pips, between the Bid (sell) and Ask (buy) price (the "Spread"). The Spread values vary for different accounts as well as depend on the instrument traded. The spread is variable; therefore, it may increase depending on the market conditions and the volatility.

Example on 1 standard lot of EURUSD:

1 standard lot of Forex currency pair is equal to 100,000 units of the base currency.

Current Bid/Ask price is 1.03170/1.03179

Spread = **Ask Price – Bid Price** = 1.03179-1.03170= 0.00009

Calculation of the cost is **Volume traded per lot*Point Size*Spread= 1*100,000*0.00009= 9 USD**

4.2. Swap/Rollover fee

Swap is the interest added or deducted from the value of your position and is only charged when a position is held open overnight. The operation is conducted at 00:00 (EET time¹) and the resulting amount is automatically converted into your Balance Currency.

The swap rate is calculated once for each day of the week that a position is rolled over with the exception of Wednesday, when it is charged 3 times to capture the weekend swap charged in advance (i.e. 7 swaps in 5 trading days). You will be able to find the value of the swap rate charged for each instrument by accessing the Trading Platform through your account the applicable/current rates charged. Rates may change quickly due to market conditions (changes
